We congratulate you on the results you have produced during your participation in the Tempus programme, and on the high standards that you have reached in the implementation of your activities. We hope that the consortium will build on the outcomes achieved and that your co-operation together will continue.

In particular we would like to extend our compliments to the project team for the results achieved in raising awareness on the Bologna Process and the ECTS system through implementing a wide range of dissemination and other promotional and educational activities at the participating institutions and with the media at local and regional level. Furthermore, we congratulate the project consortium for the publications of the project: "Guide to the new system of higher education" in seven official languages and "Glossary on Bologna process" in Serbian, German and English, both addressed to a wide public.

We encourage the consortium members to further ensure the sustainability of the project results and continue the collaboration in view of initiating long-term activities related to the implementation of ECTS at universities in Serbia.
